Everything is easier in Sant Cugat, get to know the place and you'll quickly discover why. It's the ideal place to live, study, work, have fun and do business. Getting around on foot or cycling are the best options because everything is nearby. Dynamic and creative, it's one of Catalonia's most competitive cities but still retains that small town feel.

Its powerful personality has made it a pioneer in developing the elements required to run a smart city. **Sant Cugat designs a future based on efficiency and sustainability to improve the quality of life of its citizens.**

5

It's also an **entrepreneurial** city with **start-up incubators**, **a business park with 2.700 companies**, **several multinationals** and **a notable pharmaceutical cluster**, all supported and complemented by knowledge hubs and universities.

Its characteristic professional focus makes Sant Cugat the preferred location for various meetings, conventions, congresses and events. Examples include the **Sant Cugat Tribuna business** forums, which focus on economic and business interests and are recognised as a benchmark for debate.

The city **offers a wide range of venues**, from the most modern meeting rooms to academic, business, urban

and natural environments, as well as charming locations that make each event a unique experience.

After work, when it's time to relax, the city offers every possible option. Nature and sports enthusiasts have an entire **natural park** to enjoy, or you can travel back in time and explore the **monastic complex of Sant Cugat**, do a little shopping while you're walking around the city and then why not explore **Mercantic**, a genuine permanent market with furniture, antiques and curios. A city of endless possibilities where the day can quite easily end with an excellent meal or perhaps a show. Everything's possible in Sant Cugat.

Royal Monastery of Sant Cugat

The monastic complex, founded in the 9th C, is one of the greatest examples of medieval art in Catalonia and a symbol of the city. Just looking at it is, in itself, an enriching experience.

The cloister is considered a jewel of Romanesque sculpture and one of the most important and well-conserved in southern Europe. It's outstanding for the structure and decoration of its 144 capitols, each one of them unique.

The church is a privileged location to observe a clear transition from Romanesque to Gothic.

SUGGESTIONS

 - Audio players can be rented from the Tourism Office
 - Available in the App Store and Google Play

City Routes

We suggest a walk through the history and architecture of Sant Cugat to discover the old city and medieval quarter and, at the same time, the Modernist and Novecentist buildings from the late 19th C to the early 20th C.

THE HISTORIC CENTRE

The possible origin of the city is the Roman fortress from 1 AD on which the Benedictine Monastery of Sant Cugat was erected in the 9th C. A small agricultural settlement developed next to the Monastery and some of the old farmhouses still exist today like Can Rabella and Can Bellet.

If you go to the carrer Major you'll find Les Voltes, a medieval portico where the weekly market was held.

THE CAN VERNET AQUEDUCT

This 14th C Gothic aqueduct was built to carry water from the mine of the Can Volpelleres monks to the Royal Monastery.

MODERNIST AND NOVECENLIST SANT CUGAT

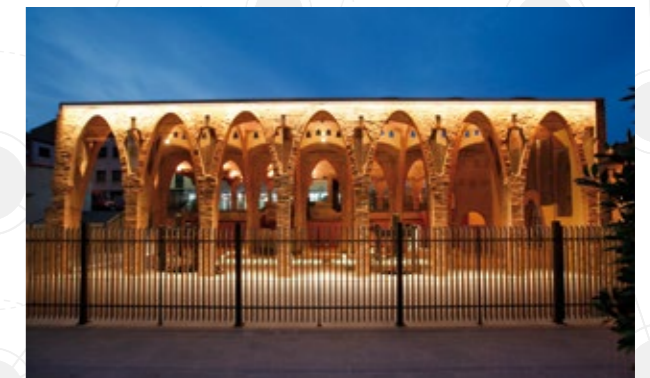

A walk around the Eixample to the south of the city will reveal the location chosen by Barcelona's bourgeoisie to build their summer homes at the end of the 19th C. On route, you can see Modernist monuments like the Modernist Wine Cellar, Villa Felisa and the Generalife.

SUGGESTIONS

Save a morning for strolling around town with the help of a tourist map or a guide.

Collserola Natural Park

Sant Cugat's great treasure is Collserola, an immense natural park that offers multiple options for anyone who loves nature and a healthy lifestyle – a veritable Paradise for hiking, cycling and running.

Covering an area of over 8.000 hectares, it's considered the largest metropolitan park in the country. On the Sant Cugat side there's a rich heritage that includes:

- The Torre Negra, a very well-conserved Romanesque military construction from the 12th C.
- The Pi d'en Xandri, a monumental pine tree that is over 210 years old and 23 metres high.
- The Sant Medir Shrine, of Romanesque origin and surrounded by a lush holm-oak wood.

A great way to wind down is to explore on horseback, mountain bike, electric bike or simply go for a walk in the park. Remember the park is a fragile ecosystem with bylaws that must be respected.

ROUTES ON FOOT

There's a total of eight itineraries to be enjoyed on foot and discover fountains, valleys, trails and beautiful farmhouses. There's a map available at the Tourism Office and we highly recommend the following three routes:

From Sant Cugat to Can Borrell

Duration: 40 min / Distance: 2,55 km / Difficulty: easy

Can Borrell Reservoir to Sant Medir

Duration: 2 h / Distance: 6,20 km / Difficulty: easy, circular trail

Font Groga

Duration: 1 h 30 min / Difficulty: easy

MOUNTAIN BIKE ITINERARIES

If you want to ride a bike, we have four itineraries that end in a commuter train station, either Rodalies-Renfe or FGC. The directions that mark the routes are the park trail signposts found at each of the crossroads. A map of these itineraries is available at the Tourism Office.

SUGGESTIONS

We recommend that you discover the Natura Local mobile app, which offers four self-guided itineraries in Sant Cugat lasting between 1 to 2 hours on foot, with detailed information about the route. It's available for free from the App Store and Google Play, both in Catalan, Spanish, English and French.
